Korrexplast – un partenaire fiable

Korrexplast LLC is one of the largest producers of plastic disposable dishes and packaging, as well as PET, PET / PE, PS film, for thermoforming.

The company was founded in 2006.

Korrexplast LLC is located in Donetsk.

PS film

PS, PET, PET/PE

The Company's quality management system is certified according to ISO 9001:2008. The Company was certificated by the Codex Alimentarius Commission according to the Recommended International Code of Practice, General Principles of Food Hygiene (CAC/RCP 1-1969).

Modern production – volumes and quality

All of our machinery is engineered to comply with high industry and regulatory standards and ensure maximum production efficiency for our clients.

Our modern AMUT (Italy) extrusion equipment, launched in 2010, allows for the production of 350 tons of PS film per month.

The thermoforming production shop has three of the latest GN (Canada) production machines. They can produce 650 tons of finished products per hour and over 8 million units per month.

For extrusion and thermoforming production, we work with high quality raw materials from leading international suppliers:

- Nizhnekamsk Neftekhim (Russia)
- BASF
- CHI MEI Corporation (Taiwan)

The plant has three industrial/warehouse buildings with a total area of 2,000 square meters.
